## Free Annual Credit Report

Examining your credit report annually is important for several reasons, including being an informed consumer of credit services and early detection of possible fraud. Federal law requires each of the three nationwide consumer reporting agencies to provide you with a free copy of your credit report, at your request, every 12 months. These three agencies have set up one central website, a toll free number, and a mailing address through which you can order your free annual credit report (See below). For a fee you may also receive your current credit score.
